DIGITAL PRINTING

Generally (for all applications):

- We print exclusive with the four CMYK basic colours
- special colours like Pantone or HKS are simulated in CMYK
- Black items and writings are to be created four-colored (C 70 / M 50 / Y 30 / K 100)
- Please supply all linked files and fonts
- Searching for fonts, which are not made available must be charged for with EUR 20,-
- Not available images will be printed in display-resolution only
- We use postscript-fonts only. True-Type-fonts have to be converted to vectors (paths or frames)
- File modifications and additional system time, which is needed in cause of differences between the delivered datas and these instructions, must be paid by the orderer

Quark Xpress and InDesign

Sizes:

- Document must be proportionally to the final size
- The document should be created on a scale 1:10 to the final size, if possible

Adobe Photoshop

- All pictures must be present in the CMYK mode
- Save pictures as "EPS" file with JPG compression with max. quality.
- Save b&w bitmaps with 1200 dpi LZW compressed in the "TIFF" format (does not apply to greyscale)
- No 5-File EPS (that means not DCS separated EPS)
- Resolution:
Panel width up to 150 cm: 60-80 dpi in final size
Panel width between 151 and 500 cm: 40 dpi in final size

Adobe Illustrator / Macromedia Freehand

- These applications are unsuitable for creating layouts, and should be used for illustrations and vector diagrams only
- Document must be proportionally to the final size
- Please create format frameworks
- fonts are to be provided or converted into paths

PDF-files

- Files are to be stored printing-optimized
- The quality of the files and merged pictures cannot be checked by us. The orderer carries the exclusive responsibility for the correct data system
- The necessary trimming addition is material and job-dependently and should therefore first with us be agreed upon.

FOIL CUTS

Generally

- Document must be proportionally to the final size
- Only vector diagrams can be cut
- Texts must be converted into paths
- Please create format frameworks
- Colours in the file have to be indicated exactly e.g. Pantone- or RAL- colours
- Frames must be closed. Lines are not allowed
- Unite superimposed objects with same colours
- Smallest possible character size is 6 mm
- Picture or layout corrections executed by us as well as increased computing times (e.g. with tiff files) are calculated after expenditure
